SECTION 4: SELECTION PROCESS

RFQ SELECTION PROCEDURES

Selection Process

Selection of an Engineering Firm will adhere to the conditions of 287.055 Florida Statutes, the Consultant's Competitive Negotiations Act. A Selection Committee made up of members as described herein will review all responses to the RFQ, establish a shortlist, and may hear presentations by the Firms on the shortlist, rank the Firms, and present the rankings to the City Council for approval. Negotiations will begin with the top ranked firm(s).

To determine the relative ability of each firm to provide the required services, the City shall consider as a minimum the criteria given below. The order of the format is important to facilitate an efficient and uniform review of the packages as provided for in the submission criteria. A list of the top ranked Firms will be established after detailed review of the qualifications. The Firms will be ranked using the qualifications criteria below.

The following steps will be followed in the selection process:

1. City management and staff will review each response that is submitted and determine which ones are considered responsive to the RFQ.
2. The City staff tasked with the review of the responses to the RFQ will meet to review, discuss, and independently score the responses in a publicly advertised meeting using the selection criteria matrix attached.
3. The City will shortlist proposals and may interview the shortlisted proposers before ranking the proposers.
4. City staff will negotiate a contract with the top ranked proposer(s). If staff is unable to negotiate a satisfactory contract with one or more of the highest ranked firms, negotiations will be terminated those firms and then negotiation with one or more of the lower-ranked firms will proceed and so on in order of preference if needed.
5. The City Council will approve the final negotiated contract(s).

Selection Committee

The City reserves the right to increase or decrease the number of individuals that are members of the Selection Committee and/or replace individuals as needed in order to assure meeting the schedule. However, no less than three (3) individuals will be used for shortlisting the RFQs received. The same individuals shall be utilized for the presentations, if necessary. However, if a conflict in schedule causes a change in personnel, the City reserves the right to proceed without that individual. It is the intention to utilize a Selection Committee during the presentations consisting of no less than three (3) individuals to hear the presentations.

Scoring Method

The scoring method for the RFQ will be based on the Required Response Format of the qualifications response. There will be no points given to the letter of interest.

SELECTION CRITERIA	WEIGHT %
Project team organization chart, resumes, and key personnel experience.	30%
Project team experience within the past 7 years with Florida local governments and projects of a similar nature.	30%
Ability to perform the services expeditiously at the request of the City. Location and availability of technical support people and assigned project manager to the City	30%
Completeness of RFQ submittal	10%

Project team organizational chart, resumes, and key personnel experience 30%

This section requires that the project team organizational chart, resumes and key personnel experience make the lines of communication and responsibility very clear as well as who the Client Manager is. Maximum points will be given to key personnel experience that is relevant to water, wastewater and reclaimed water projects with Florida local governments. In addition, higher value will be given to a team that includes key personnel experience with a wide range of water, wastewater and reclaimed water projects.

Project team experience/references 30%

This section of the RFQ deals with relevant and related experience and qualifications. Maximum points will be given to projects where the related experience and qualifications of the firm correlates directly with the project team members per the organizational chart and their resumes. In addition, higher value will be given to work performed for Florida local governments and similar projects.. Recent work experience will be weighted more heavily than historical experience.

Provide a specific reference for contact by the City that can attest to the work performed by the consulting team member. One should anticipate that these references will be called and that the responses to these references will affect the awarding of points in this category.

Ability to perform the services expeditiously at the request of the City. Location and availability of technical support people and assigned project manager to the City 30%

The points will be awarded based on factors such as the physical location of the Firm's office and its Design Professionals and sub-consultants. All key personnel shall have their primary work location identified in the submittal. Firms that have the ability to complete all the services in-house may be awarded more points than firms that require sub-consultants unless a compelling rationale is given as to why the diversified team approach is better for this particular project. Firms that do not adequately anticipate nor cover in-house all of the services required (such as ecological, hydrogeological, structural engineering services, etc.) will receive less points than firms whose response properly identifies all the design professionals required to provide the scope of services.

Completeness of RFQ submittal 10%

RFQ packages must include adequate proof of insurance coverage for all team member firms and proof of professional registrations required to perform design and permitting activities required by the work and include all other required forms (such as the Drug Free Workplace Form, etc.).

Other Considerations

The City will allow an Additional Consideration Section for the applicants to present any other relevant information that they believe should be considered during the qualifications shortlisting process. This information can include a preliminary project approach, recommendation letters, color photos, or any other type of information that they feel should be taken into account during our selection process.

Shortlisting and Notification

Subsequent to selection and approval by the City, all respondents to this solicitation will be notified in writing regarding the selection of the top ranked Firms.

Reuse of Design Ideas

Upon submittal of proposals and oral presentations, all information becomes public information and the concepts or design ideas advanced by any Firm may be reused directly or indirectly by the City without any limitation or payment to the Firm. Granting the City the right to refuse documents contained in the presentation and proposal is a condition of presenting the proposals.

Challenge of Notice of Intent to Award

Any person adversely affected by the City's decision, or intended decision, on the award is entitled to challenge the award by filing a written notice of protest within 72 hours after the posting of the intent to award. A copy of the City's protest procedures may be obtained through the Purchasing Department upon request.

Rejection of Proposals

The City of Venice reserves the right to waive minor proposal irregularities, and to reject any and all Proposals or parts thereof, or to accept the Proposal(s) or parts thereof, when considered by it to be in the best interest of the City.

Re: RFQ #3092-18 Professional Engineering Services For Large Utilities Capital Projects

This addendum sets forth changes and/or information as referenced and is hereby made part of and should be attached to the subject Contract Documents. Receipt of this Addendum shall be acknowledged below and in the submitted proposal. It shall be the responsibility of each proposer, prior to submitting a proposal, to contact the City of Venice- Procurement- Finance Department to determine if addenda were issued and to make such addenda a part of their proposal.

The following questions were received in writing:

Q1: We work with various subconsultants on projects. Do subconsultants need to be stated in the proposal?

If the sub-consultant is going to be performing a significant part of the work please provide their information. You can also provide information on any sub-consultant that you feel would be important for the City to consider in the evaluation of the qualifications.

Q2: Does the city have available asbuilts, record drawings of utilities, preliminary reports, or feasibility studies?

Yes, these will be provided to the selected firms to assist in developing the proposal cost estimate.

Q3: For the Water Main Replacement Phases 7 and 8 project, are we able to receive a copy of the preliminary assessment from Black & Veatch for this proposal?

This report is still in the draft stage. See response to Q2 above.

Q4: Water System Improvements: Phase 1 – Water Booster Station, GST, and Emergency Interconnection; and Phase 2, Second Stage RO System Project – Given that Phase 1 and Phase 2 of the Proposed Water System Improvements are two separate and distinct capital improvements, would the City allow the RFQ response to present these (and be evaluated) as two separate projects?

Yes, the respondent may propose to be evaluated on these two projects separately and, as such, may submit on one or the other if that is the desire. Please be clear in your submittal on what you are proposing.

Q5: If we pursue more than one of the five capital projects, do we provide an organizational chart for each project?

Yes

Q6: Similarly, do we provide a Project Team Form for each project?

Yes

Q7: Please clarify if Phase 2, Second Stage RO System of the Water System Improvements project only includes the preliminary design, including pilot testing. It is unclear if detailed design, permitting and construction administration/inspection services are also part of this phase. This project will include preliminary design, final pilot testing, final design, permitting, and the construction phase of the project.

Receipt of this Addendum shall be acknowledged below and in the submitted proposal. It shall be the responsibility of each proposer, prior to submitting a proposal, to contact the City of Venice- Procurement- Finance Department to determine if addenda were issued and to make such addenda a part of their proposal.

The following questions were received in writing:

Question: The written description in Section 2 (Scope of Services) of the boundary of Project 4, Phase Two with the easterly boundary of Peach Street, as well as some of the verbiage of the Phase 3 description, is somewhat confusing. Can a graphic of the boundaries of Project 4 be provided for clarification?

Response: The Phase 2 area of Project 4 should have said, "...bounded on the west by US 41 and on the east by *Hatchett Creek*..." not on the east by Peach St. The rest of the description should remain the same.

Question: Pursuant to the responses for Q5 and Q6 from Addendum 1 , if the exact same Organizational Chart and the same Personnel are proposed for multiple projects, can just one Organizational Chart and one Project Team/Resumes be included, provided it is made very clear that the same team/org chart is being proposed for the multiple listed projects?

Response: Yes, provided it is made very clear that the same team/org chart is being proposed for the multiple listed projects.

Question: Or, should the org chart, project team and resumes be included multiple times?

Response: No. that is not necessary.
