As a resident of the City of Venice, my spouse and I are greatly concerned about the over development taking place in and just outside of the City.

A classic example is Murphy Oaks with a density much too high when compared with surrounding communities. The **primary directive of every City Council** is to preserve the essence of Venice, that which makes our town unique. To continually approve excessive development will turn our town into an area clogged with traffic and impossible to navigate, surrounded communities with degraded living areas, all to satisfy developers greed.

You must act to preserve Venice values NOW. As voters I guarantee we will not tolerate the ruination of our City.

You have got to stop this. I don't normally get involved in your and the town council's decisions but enough is enough.

No response to my email is necessary. I'll know if you do what you should do.
