

RESOLUTION NO. 99-3

A RESOLUTION OF THE CITY OF VENICE, FLORIDA, ESTABLISHING STANDARDS FOR COMMERCIAL AERONAUTICAL ACTIVITIES AT THE VENICE MUNICIPAL AIRPORT, VENICE, FLORIDA; RESCINDING RESOLUTION NO. 626-78; REPEALING ALL OTHER RESOLUTIONS OR PARTS OF RESOLUTIONS IN CONFLICT HERewith; PROVIDING FOR SEVERABILITY OF ANY PORTION DECLARED INVALID; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the establishment of standard criteria governing the operation of Commercial Aeronautical Activities at the Venice Municipal Airport would be beneficial to the Airport and its users; and

WHEREAS, establishment of standard criteria will assist in providing needed services to local residents and tourists and will provide for an efficient operation of the Venice Municipal Airport and help to provide an atmosphere wherein airport tenants may prosper; and

WHEREAS, the City Council desires to formally adopt standard criteria for Commercial Aeronautical Activities as presented by the Airport Advisory Board which are attached to this resolution as Exhibit "A".

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF VENICE, FLORIDA, as follows:

SECTION 1. That the following City of Venice "Standards for Commercial Aeronautical Activities at the Venice Municipal Airport," attached to this resolution as Exhibit "A" and by reference incorporated herein as if fully set forth in this resolution are hereby adopted as the City of Venice Standards for Commercial Aeronautical Activities at the Venice Municipal Airport.

SECTION 2. If any word, sentence, phrase, clause, section or portion of this resolution shall be held invalid or unconstitutional by a court of competent jurisdiction, such portion or words shall be deemed a separate and independent provision and such holding shall not affect the validity of the remaining portions thereof.

SECTION 3. Resolution no. 626-78 is hereby rescinded and all other resolutions or parts of resolutions in conflict herewith are hereby repealed.

SECTION 4. This resolution shall take effect immediately upon adoption, as provided by law.

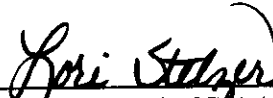

ADOPTED BY THE CITY COUNCIL OF THE CITY OF VENICE, FLORIDA, at a meeting held on the 26th day of January, 1999.

Dean Calamaras, Mayor, City of Venice

I, LORI STELZER, CMC/AAE, City Clerk of the City of Venice, Florida, a municipal corporation in Sarasota County, Florida, do hereby certify that the foregoing is a full and complete, true and correct copy of a Resolution duly adopted by the City Council of the City of Venice, Florida at a meeting thereof duly convened and held on the 26th day of January, 1999, a quorum being present.

WITNESS my hand and the official seal of said City this 27th day of January, 1999

Lori Stelzer, CMC/AAE, City Clerk

MINIMUM STANDARDS FOR COMMERCIAL AERONAUTICAL ACTIVITIES AT VENICE MUNICIPAL AIRPORT

Part I. General Information

Section 1. Introduction:

The Venice Municipal Airport is owned and operated by the City of Venice, a political subdivision of the State of Florida for the benefit of public use. These standards shall establish a minimum requirements to be met as a condition for any person(s) that propose(s) to conduct commercial aeronautical activities on the property located at the Venice Municipal Airport.

The City of Venice's goal in adopting these standards is to encourage the development of quality aeronautical services and to make the airport available for commercial aeronautical activities on a fair and reasonable term without unjust discrimination.

These standards are guidelines and are subject to be amended and modified from time to time at the discretion of the City of Venice or as conditions warrant. These are to be consistent with federal, state and local Rules and Regulations.

Section 2. Definitions:

A. **Aeronautical Activities** - Any activity that involves, makes possible, or is required for the operation of aircraft, or contributes to or required for the safety of such operation. The following activities commonly conducted at the Airport are aeronautical activities but not limited to this definition:

- Charter Flights
- Flight Training
- Aircraft Rental
- Aircraft Rides/Tours
- Aerial Photography
- Aerial Surveying
- Carrier Operations
- Aircraft Sales & Services
- Sale of Petroleum Products
- Repair and Maintenance of Aircraft
- Sales of Aircraft Parts
- Any Other Activity which, because of their direct relationship to the operation of the aircraft can be appropriately regarded as an aeronautical activity.

- B. **Airport** - All property and improvements within the boundary lines of the Venice Municipal Airport, Venice, Florida.
- C. **Commercial Aeronautical Activity** - The operation of any business for exchange, trading, buying, hiring, selling or bartering of any commodities, goods, services or property of any kind or any other revenue producing activity, whether or not a profit is produced.
- D. **Commercial Aviation Operator** - Any person or organization engaged in a business of an aviation nature under the authority of a lease or permit from the City of Venice.
- E. **Fixed Base Operator** - Those commercial aviation Operators who furnish and engage in a full range of aeronautical services and activities for the public including line service, sales of aircraft, parts and supplies, maintenance, and repair of airframes and engines, aircraft charters and rentals.
- F. **F. A. A.** - Federal Aviation Administration of the United States of America, Department of Transportation.
- G. **F. A. R.** - Federal Aviation Regulations.
- H. **Person** - Any individual, partnership, firm, organization, association, company, corporation, it's agent, or duly authorized representative thereof.

Section 3. General Philosophy:

- A. It is the intent of the City of Venice to offer the maximum variety of aviation related services in order to maximize the choice of service providers to the public using the airport.
- B. The City of Venice will provide a fair and reasonable opportunity without unjust discrimination for all qualified persons to compete for the right to construct, lease or sublease appropriate space on the Venice Municipal Airport in order to conduct commercial aeronautical activities.
- C. Prior to starting any operation, an Operator must enter into an agreement with the City of Venice. Such an agreement will indicate the terms and conditions under which the activity will be operated on the airport. Granting of such rights or privileges, however, shall not be construed in any manner as affording the Operator an exclusive or continuing right of use of the premises or facilities of the Airport other than premises which may be leased exclusively to the Operator in order to maximize the facility use and business opportunities.

A lease of this nature, at the City of Venice sole discretion, shall be considered to meet the minimum facility requirements as defined in Part II of these standards. The City of Venice further reserves the right to designate from time-to-time the specific areas where an individual

aeronautical service or a combination of aeronautical services may be conducted and determine whether or not there is sufficient appropriate or adequate space at the proposed site to meet the minimum requirements established. Such determination shall consider the nature and extent of the proposed operation and the site available for such a purpose that can be performed orderly, safely, consistently, and be an efficient operation for the airport.

Section 4. Insurances:

- A. Every Operator shall procure, maintain and continue in effect for the duration of its activities upon the airport at the Operators sole expense, insurance of the type and at least such minimum amounts that are determined by the City of Venice. Such insurances shall be placed with the company or companies authorized to do business in the State of Florida and shall be satisfactory to the City of Venice. All required insurances shall include the City of Venice as an additional insured. All Operators insurance shall not be subject to cancellation or alteration until such written notice has been provided to the City of Venice. The City of Venice may vary the type and minimum of insurance coverage required based on the precise nature of the aeronautical activities to be conducted. Failure to secure and maintain the required insurance and any specific insurance required by the City of Venice shall be deemed a violation of the minimum standards. All persons using any part of the airport shall be held liable for any property damaged caused by carelessness and negligence on or over the airport.

Section 5. Construction and Site Development Standards:

- A. Any proposed construction or facilities developed by the Operator will be subject to the approval of the Venice Municipal Airport and the City of Venice, respective representatives and/or codes and regulations subject thereto as required by federal, state and local codes. All improvements constructed on the airport shall become part of the land that belongs to the Venice Municipal Airport upon expiration, termination, or cancellation of the lease agreement between the Operator and the City of Venice covering such improvements. The Operator will be responsible for extending any such services such as pavement, taxiways, roadways, and/or utility services to the site at the Operators sole expense, unless otherwise negotiated by the City of Venice. All such services and improvements shall be constructed in full compliance with the City of Venice, Venice Municipal Airport and FAA standards as well as associated applicable codes.

Section 6. General Operational Requirements:

- A. Operators shall employ trained personnel in such numbers as are required to meet the applicable Minimum Standards set forth herein in an efficient manner for each aeronautical activity or service being performed. Operator's personnel shall be on duty during the

applicable operating hours. The Operator shall also provide a responsible person in the office, if required, to supervise the operations in the leased area and on the Airport, with authorization to represent and act for and on behalf of the Operator during all business hours. Operator shall provide the Venice Municipal Airport with information regarding qualified personnel who are available after normal business hours to respond to emergency situations involving Operator's activities.

- B. Operator shall control the conduct, demeanor and appearance of its employees. Operator shall train its employees and insure they possess such technical qualifications and hold the required certificates, permits, license and ratings to conduct Operator's business activities on the Airport. It shall be the responsibility of the Operator to maintain close supervision over its employees to assure a high standard of service to Operator's customers.
- C. No aircraft or other vehicle may be left unattended or parked, or any object or structure placed, built or left to remain at any point on the Airport where such object would protrude through any imaginary surface so as to create an obstruction under FAR or applicable City of Venice Ordinances or Codes.
- D. Operator personnel shall drive motor vehicles on the Airport only in strict accordance with the Airport Rules and Regulations and/or Airport Management direction, applicable federal, state and local laws, ordinances, codes or other similar regulations now in existence or as may be hereafter modified, amended or enacted.
- E. Operator shall permit the City of Venice to enter upon its leased premises at any reasonable time for any purpose necessary, incidental to, or connected with the operator's performance of its obligations with respect to these standards or the terms of its lease agreement or in the exercise of the City of Venice governmental functions; for fire protection or security purposes; to inspect or maintain the premises; to do any other task deemed necessary or desirable for the proper operation of the airport.
- F. The rates or charges for any and all activities and services of the Operator shall be determined by the Operator, and all such rates or charges shall be reasonable, equally and fairly applied to all users of the services.
- G. Operator shall provide prompt, courteous and efficient service to the public and provide an adequate means of contact to meet service demands. Operator shall adhere to the highest ethical and aviation service community standards in the conduct of its activities.
- H. Operator shall commit no unlawful nuisance, waste or injury on the leased premises and will refrain from doing anything which may result in the creation, commission or maintenance of such nuisance, waste or injury to property on the Airport.

- I. Operator shall refrain from doing anything which might interfere with the effectiveness of accessibility of the Airport's public utilities, drainage/sewer, stormwater management systems, fire protection services on or in Operator's leased premises. Operator shall refrain from doing any act upon the Airport which will invalidate or be in conflict with any fire, property or liability insurance policies covering the Airport.
- J. Operator shall remove or dispose of debris and other waste material such as solid or liquids arising from Operator's activities. Any garbage, debris or waste which may be temporarily stored in the open shall be kept in suitable garbage or waste receptacle, equipped with a tight-fitting cover of a design sufficient to contain whatever may be placed therein. Operator shall use extreme care when removing all such waste. Any hazardous waste generated, stored or disposed of shall comply with all applicable federal, state and local codes.
- K. Operator shall keep and maintain its leased premises and all improvements in a neat and orderly condition, and in good and substantial repair, condition and appearance. Operator shall keep mowed and in a slightly condition all landscaping and grass areas within its leased premises. Operator shall also maintain all aprons, ramps, taxilanes, roadways and parking lots that are constructed by Operator or reserved for the exclusive use of the Operator.
- L. The airport apron, taxiway facilities and runways are designed and constructed with specific geometric load limits. These are a function of necessary occurrences in accordance with FAA criteria and pavement structural support capacity for a safe and non-damaging operation of the airport facilities. The Operator shall be responsible to insure the aircraft having wingspans greater than published for this specific facility or a maximum weight exceeding those published do not operate on the aprons, taxiways, or runways accessible to and from the lease space where they exceed the criteria.
- M. Multiple uses of aircraft and personnel may be satisfactory. The practice of providing a variety of aeronautical activities by single Operator is beneficial to the Operator, the flying public and the Airport.
- N. The Venice Municipal Airport is located in a noise sensitive residential area. Therefore, the following Advisory is being issued to all pilots utilizing the Airport and should be posted in a prominent area of the Operator's facility: (1) All touch and goes are restricted between the hours of 10:00 p.m. and 7:00 a.m.; (2) Use Runway 22 (over the Gulf) when winds are permitting. Wind information available on AWOS 125.525; (3) If wind condition does not permit runway 22 departure, turn left as soon as possible after departure of Runway 31; and, (4) After take off, all jet aircraft should reduce power, as soon as it can be done safely, over residential areas.

The Operator is an important communication network to pilots and public users of the Airport. Their cooperation/assistance for Noise Abatement procedure adherence and education is required.

Section 7. Operations, Facilities, and Accommodations.

- A. No person shall use the airport or any portion thereof or any of its improvements or facilities for commercial, business or aeronautical activities without first complying with these Standards and obtaining the required approval and written consent associated with those activities by entering into such agreement as may be prescribed by the City of Venice. Except as provided for herein, each Aeronautical Service Operator shall provide and maintain an office located upon the Airport which shall be available to the public by appointment during business hours posted in a prominent place at the Operator's place of business. The office must include appropriate furnishings, separate restrooms for men and women, and adequate facilities to conduct the business it is intended for and shall be suitably provided with heating and air conditioning.
- B. Unless otherwise provided, the activities of the Operator shall be conducted on an area, or areas of sufficient size to accommodate all services which the Operator has been approved to perform. The Operator shall conduct its business operations strictly within the areas assigned by the Airport and its operations shall not in any way interfere with the operations of other Operators, agencies, or other businesses operating on the airport; i.e. the use of the airport by the general public or with any common use areas.
- C. The Operators shall not use any common areas except as authorized by these Standard, the Airport Rules and Regulations, and/or Airport Management.
- D. All aviation and/or aeronautical business shall at a minimum conduct operations for eight (8) consecutive hours, five (5) days a week excluding recognized holidays. Exceptions are commercial activities, non-aviation activities and/or specialized aeronautical services subject to the Airport approval, since the hours of operation may not be appropriate to the specific services being rendered.

Section 8. Lease Information

- A. Any person or Operator will meet the Minimum Standards as set forth herein per the categories to expand its operations or become an Operator at the Venice Airport. All Operators shall not engage in any business or activity on the Venice Municipal Airport other than that which has been specifically authorized. Any Operator desiring to extend its operations into additional categories or discontinue operations in a category shall provide written request to the Venice Airport for authorization to perform same, setting forth in detail, criteria and conditions of such request. The City shall then grant or deny the request on such terms and conditions as the City deems prudent and proper under the circumstances. Proposed or existing Operators, may be required to provide evidence of past experience, financial capability and technical ability to perform the proposed services.

- B. Regarding evidence of financial capability to perform and provide the services, the City of Venice shall be the sole judge of what constitutes adequate finances and the procedure to base financial information. If the Operator or proposed Operator does not, in the opinion of the City of Venice, exhibit adequate financial responsibility to undertake the proposed services, the City of Venice may deny any requested activity.

Section 9. Sub-lease Requirements

The Operator shall not sublease said premise or any part thereof without the consent of the City first having been obtained. To sublease space to another person the following conditions must apply:

- A The Operator must meet all of the Minimum Standards established by the City of Venice for the category or categories of services to be furnished. The standards may be met in combination by the Operator or the sublease Operator. The sublease agreement shall be specifically confined to those services authorized by the Operator.

The sublease Operator shall enter into an agreement with the Operator. The agreement document to be executed shall be a standard lease developed by the City of Venice for Operators to utilize. The sublease Operator shall provide evidence of minimum insurance coverage as determined by the City of Venice for the services being performed. The agreement shall be subject to the City of Venice approval based on the Minimum Standards of the Operator lease and must be applicable to all codes and ordinances of the City of Venice.

The agreement can be executed on behalf of the City of Venice by the City Manager.

Section 10. Waiver of Standards

The City of Venice in its sole discretion may waive all or any portion of these standards for the benefit of the Venice Municipal Airport:

- A.
1. General Public in time of emergency.
 2. Performing public service to the aircraft industry or performing a non-profit emergency medical or rescue service for the general public by means of aircraft.
 3. Fire prevention or fire fighting operations.
 4. Police enforcement or safety operations.
 5. The City of Venice may further waive or reduce these standards for non-governmental Operators where such waiver or reduction is in the best interest or welfare of the airports operations.

B. Waiver Procedure

If the requirement of a standard applicable to a lease is unreasonable or affecting his business, the Operator/Proposed Operator may request special consideration and action by the City of Venice. The appeal must be in writing and filed through the Airport Management. Such appeal shall be reviewed by the Airport Management and provide a recommendation to the Airport Advisory Board for their recommendation to the Venice City Council. Venice City Council may consider waiver of any portion of the standards for the benefit of the aviation community and/or the Venice Municipal Airport.

Minimum Standards Category Criteria:

Category "A" - Flight Instruction and Aircraft Rental: Flight Training Operator engages in instructing pilots and flight training of aircraft provides such related ground school instructions as required by FAA or categories of pilot licensing and ratings involved. This Operator may also rent aircraft for use by students and other pilots.

- A. Land: The Operator shall lease from the City of Venice, an area not less than 21,780 square feet of land to provide space for building, automobile parking, storage and parking of aircraft and area for utility and support facilities.
- B. Building: A building must be leased or constructed having a minimum of 1,000 square feet with floor space to provide for classroom, briefing room, pilot lounge, office space, restrooms, and telephones.
- C. Access: Operator shall provide for aircraft parking and operating area on leased premise and shall provide paved access from facility to taxiway system. Such taxiway access shall meet all applicable FAA, Airport standards for the largest aircraft type anticipated to use the operators facility. The Operator shall provide adequate automobile parking spaces within the leased area to satisfy the needs of the tenant employees, students, and general public.
- D. Personnel: The Operator shall employ or have available a sufficient number of properly rated instructor/pilots certified by FAA to provide the type of training desired.
- E. Aircraft: The Operator shall have available aircraft for use in flight training either owned or leased to the Operator not less than two (2) properly certified aircraft equipped to support the classification of the services provided.
- F. Hours of Operation: The Operator shall make provisions for someone to be in attendance in the office at all time during the posted business hours. Operators who do not post regular business hours shall provide an adequate means of contacting the Operator to arrange for an appointment and must contact the potential customer not more than 24 hours after the initial service inquiry.

Category "B" - Aircraft Charter and Aircraft Rental Services: The Operator shall be engaged in the business of air transportation to the general public for hire on demand, or on an scheduled basis under the requirement of FAR Part 135.

- A. Land: The Operator shall lease from the City of Venice an area not less than 21,780 square feet to provide space for a building, automobile parking, storage and parking of aircraft and area for utility and support facilities.
- B. Building: The Operator shall lease or construct a minimum 3,000 square feet building and office space to provide for aircraft storage, lounge, restrooms, telephones and sufficient space to adequately process passenger's freight and luggage.
- C. Access: Operator shall provide for aircraft parking an operating area on leased premise and shall provide paved access from facility to taxiway system. Such taxiway access shall meet all applicable FAA and Airport standards for the largest aircraft type anticipated to use the operators facility. The Operator shall provide adequate automobile parking spaces within the leased area to satisfy the needs of the tenant employees, students and general public.
- D. Personnel: The Operator shall employ and have on duty during the operating hours trained personnel in such numbers as may be required to meet the standards in a safe and efficient manner, depending upon the type of aircraft used, that have valid FAA commercial pilots certification with the appropriate ratings to permit flight activity offered by the Operator.
- E. Aircraft: The Operator shall have available for use either owned or leased to the Operator sufficient certified aircraft equipped to support the classification of the serviced
- F. Hours of Operation: The Operator shall make provisions for someone to be in attendance in the office at all time during the posted business hours. Operators who do not ost regular business hours shall provide an adequate means of contacting the Operator to arrange for an appointment and must contact the potential customer not more than 24 hours after the initial service inquiry.
- G. Special Provisions: The Operator shall provide evidence in the form of current FAA Part 135 certificate or other evidence required by the City of Venice to show documentation that the Operator is in compliance with the category.

Category "C" - Aircraft Maintenance and Repair Service: An Operator in this category is authorized to operate an aircraft engine, propeller and accessory or maintenance and overhaul facility. This category also provides for the non-exclusive sale of aircraft parts and accessories.

- A. **Land:** The Operator shall lease from the City of Venice, an area not less than 32,670 square feet of land to provide space for building, automobile parking, storage and parking of aircraft and area for utility and support facilities.
- B. **Building:** A building must be leased or constructed having a minimum of 5,000 square feet with floor space to provide for office space, restrooms, shop space, lounge space and telephones.
- C. **Access:** The Operator shall provide for aircraft parking an operating area on leased premise and shall provide paved access from facility to taxiway system. Such taxiway access shall meet all applicable FAA and Airport standards for the largest aircraft type anticipated to use the operators facility. The Operator shall provide adequate automobile parking spaces within the leased area to satisfy the needs of the tenant employees, and general public use.
- D. **Services and Equipment Provided:** The Operator shall provide sufficient shop space and equipment, supplies and inventory for aircraft parts to perform aircraft maintenance as required by the FAA. The Operator shall provide emergency aircraft recovery services and equipment necessary to properly remove a disabled general aviation aircraft of the largest type normally utilizing the airport.
- E. **Personnel:** The Operator shall employ and have on duty during the appropriate business hours trained personnel in such a manner that are required to meet these standards in a safe and efficient manner but never less than one (1) person currently certified by FAA with the ratings appropriate for the work to be performed.

Category "D" - Aviation Fuel Sales and Related Services: The Operator is authorized to provide aviation fuel, lubricants and other services in support of aircraft operations on the airport.

- A. **Land:** The Operator shall lease from the City of Venice an area not less than 32,670 square feet of land to provide for building, automobile parking, storage and parking of aircraft and area for utility and support facilities.
- B. **Building:** The Operator shall lease or construct building with a minimum 1,000 square feet of office space for passengers, crew of aircraft, restrooms, lounge space and telephones.
- C. **Access:** Operator shall provide for aircraft parking and operating area on leased premise and shall provide paved access from facility to taxiway system. Such taxiway access shall meet all applicable FAA and Airport standards for the largest aircraft type anticipated to use the operators facility. The operator shall provide adequate automobile parking spaces within the leased area to satisfy the needs of the employees and general public.
- D. **Services:** The Operator shall provide a full range of approved retail fuel services including jet fuel and av gas. At least one (1) 8,000 gallon fuel storage tank for each grade of aviation fuel usually required for aircraft using the airport is to be provided. The operator shall provide metered, filter equipment dispensers, fixed and mobile, for dispensing the required grade of fuel. Operators in this category, at the discretion of the City of Venice, may not require the operator to provide two (2) separate grades of aviation fuel depending upon the available fuel on the airport via other Fixed Base Operators.

The Operator shall provide directly or indirectly minor repair service to aircrafts service needs on the ramp or apron parking areas but only within the premise leased of the Operator or other approved common parking areas of the airport. The Operator shall have such equipment as necessary to provide aircraft towing and re-charging/energizing aircraft batteries and starters. All equipment shall be maintained and operated in accordance with federal, state, local and Airport codes.

The Operator will maintain a fuel source facilities for subject to registration by the State of Florida and shall be required to purchase pollution liability insurance policy and the policy shall name the City of Venice as additional insured and shall be in such an amount as directed by the City of Venice. Conducting refilling operations, the Operator shall install and use adequate grounding facilities at fueling locations to eliminate hazardous static electricity and shall provide fire extinguisher and other equipment as approved by the National Fire Protection Association or as directed by the Venice Fire Department as to the type and quantities as required with the hazards of re-fueling and servicing aircraft.

The Operator shall provide for adequate and sanitary handling and disposal from the Airport, all trash, waste and other materials but not limited to used oil, solvents and other waste. The piling or storage of crates/boxes, barrels and other containers will not be permitted within the leased premise.

- E. Hours of Operation: The Operator shall provide for aircraft fueling and oil dispensing service 8:00 a.m. to 5:00 p.m., seven (7) days a week. The Operator shall arrange for a such service during after hours on a call basis.
- F. Personnel: The Operator shall employ trained personnel in such number as required to meet the Minimum Standards as set forth in this category of services in an efficient manner. Said personnel shall be trained in the operation of all equipment to reduce potential hazards or pollution contamination.

Category "E" - Aircraft Sales and Service Facility - An aircraft sales Operator is entitled to engage in the sales of new and used aircraft.

- A. **Land**: The Operator shall lease from the City of Venice, an area not less than 21,780 square feet of land to provide space for building, automobile parking, storage and parking of aircraft and area for utility and support facilities.
- B. **Building**: The Operator will lease or construct a facility having a minimum of 3,000 square feet of aircraft storage, display space, office space, lounge, restroom and telephone.
- C. **Access**: Operator shall provide for aircraft parking an operating area on leased premise and shall provide paved access from facility to taxiway system. Such taxiway access shall meet all applicable FAA and Airport standards for the largest aircraft type anticipated to use the operators facility. The Operator shall provide adequate automobile parking spaces within the leased area to satisfy the needs of the tenant employees and general public.
- D. **Service/Equipment Provided**: The Operator will provide satisfactory arrangements for repair and servicing of aircraft sold but only for the duration of the sales guarantee. The Operator shall provide an adequate inventory of spare parts for the type of new aircraft intended for sale. Servicing facilities maybe provided.
- E. **Dealerships**: New aircraft dealer shall hold an authorized factory or sub-dealership. All aircraft dealers shall hold a current occupational license or permit and an operator engaged in used aircraft must conform to provisions of the FAA regulations and present valid dealer aircraft registration certificates. All aircraft dealers shall hold appropriate licenses and permits that may be required by any law or regulatory agency.
- F. **Aircraft**: The dealer of a new aircraft shall have available or on-call current model demonstrators per dealer agreement. Dealers of used aircraft shall have reasonable access to aircraft offered to sale for the purpose of demonstration.
- G. **Personnel**: The Operator shall employ and have on duty during the appropriate business hours trained personnel in such a manner as required to meet these standards in an efficient manner but no less than one (1) properly certified and qualified pilot to provide demonstration and check rides for aircraft operator appropriate for the type of aircraft to be demonstrated.
- H. **Hours of Operation**: The Operator shall make provisions for someone to be in attendance in the office at all times during posted operating business hours. The Operator shall arrange for such services during after business hours on a call basis.
- I. **Aircraft and Equipment**: The Operator shall comply with the aircraft requirements including equipment thereof in each aeronautical service being performed; however, multiple uses can be made of all aircraft utilized. The Operator shall provide the facility and equipment and services to meet the standards provided in this part for each aeronautical service the Operator is performing

Category "F" - Special Aircraft and Aeronautical Services - The Operator shall provide a variety of aeronautical activities that would fall within this category but are not meant to be inclusive or all restrictive:

- a. The installation of or repair of avionics instruments, propellers and accessories, aircraft painting, upholstery and similar aircraft components and support services. This category allows the Operator to sell new or used aircraft radio, instruments, propellers, and accessories.
- b. Storage of aircraft, rides, aerial photography, aerial surveying, and police activities.
- A. Land: The Operator shall lease from the City of Venice, an area not less than 21,780 square feet of land to provide space for building, automobile parking, storage and support facilities.
- B. Building: A building must be leased or constructed having a minimum of 3,000 square feet to provide office space, aircraft storage, restroom and telephone.
- C. Access: Operator shall provide for aircraft parking an operating area on leased premise and shall provide paved access from facility to taxiway system. Such taxiway access shall meet all applicable FAA and Airport standards for the largest aircraft type anticipated to use the operators facility. The Operator shall provide adequate automobile parking spaces within the leased area to satisfy the needs of the employees, customers and general public.
- D. Personnel: The Operator shall employ, properly certified by FAA, personnel to support the type of services and activities which will be offered under this category.
- E. Aircraft: The Operator shall have based on the leasehold at least one (1) aircraft owned or under written lease to the operator, aircraft shall be certified airworthy to meet the requirements of FAA with respect to the operations to be performed.
- F. Hours of Operation: The Operator will make provisions to have someone to be in attendance and in the office at all times during posted operating hours. The Operator who does not have posted business hours will provide for adequate means of contacting the Operator to arrange for appointments and must agree to contact potential customer in not less than 24 hours of the original inquiry of service.
- G. Special Provision: If aircraft painting is provided, the Operator shall provide adequate facilities to conduct the operation in accordance with applicable Airport Rules and Regulations, National Fire Protection Association recommendations, local fire protection and building codes and all other applicable safety regulations.

Category "G" - **Multiple Aeronautical Services**: A multi aeronautical service Operator is engaged in any two (2) or more of the aeronautical services as described in Part II of the Minimum Standards.

- A. **Land**: The Operator shall lease from the City of Venice, an area not less than 43,560 square feet, one (1) acre to provide space for building, automobile parking, storage and parking of aircraft, as applicable, and area for utility and support facilities.
- B. **Building**: A building must be leased or constructed having a minimum of 6,000 square feet for aircraft storage, shop area, office space, public facilities, restrooms and telephones. If aircraft maintenance and repair service is one of the multi service categories provided by the Operator, at least 10,000 square feet of aircraft storage, shop area and offices shall be provided. If flight training is one of the multi service offered, the operator shall provide classroom and briefing room facilities as required by the standards.

The City reserves the right to require the lease area or building space to be greater than the Minimum Standards if in the City's opinion such increase is necessary or desirable to properly satisfy the public need for services to be provided.

- C. **Access**: Operator shall provide for aircraft parking and operating area on lease premises and shall provide paved access from facility to taxiway system. Such taxiway access shall meet all applicable FAA and Airport standards for the largest aircraft type anticipated to use the operators facility. The Operator shall provide adequate automobile parking spaces within the leased area to satisfy the needs of employees, customer and general public use.
- D. **Hours of Operation**: The Operator shall adhere to the hours of operation required in the standards for each aeronautical service being performed.
- E. **Personnel**: The Operator shall have in its employ and on duty during the posted business hours, trained personnel in such numbers as required to meet the standards as provided for in this part for each aeronautical activity the Operator intends to provide.
