

Bronze Sculpture Proposal:

Title: Megalodon Tooth

Artist: Zach Frignoca

Description: Venice is known as "the shark tooth capital of the world." It deserves a Landmark shark tooth sculpture to honor that title. Every day people travel to Venice from all over the globe in hopes of recovering an ancient fossil shark tooth. This bronze statue will become a must see tourist destination for generations to come.

Type of Media: Bronze with Stainless Steel Infrastructure, Estimated Weight: 1300 lbs. (subject to change)

Dimensions of Tooth: 8' in height, overall height will increase and can be determined once foundation materials are selected. Possible material options include concrete or coquina rock.

The following renderings are for example purpose only. Once the patina and base material are selected a more accurate rendering will be possible.

Frignoca/Bronzart Foundry
