

Ride and Drive Event March 21 & 22, 2020

8 am – 5 pm

Our typical setup is;

We arrive at the location on Friday night to park our 2 car trailers on the property. On Saturday morning around 8am we arrive, take cars out of the trailers, and set up our course with 6" mini cones. We do not set up any tents larger than 10x10, and we do not drill them into the ground.

We start having cars driving on the course by either 9am or 10am depending on our bookings. The driving experience is not competitive or timed, and a staff member is in the vehicle with them at all times. We schedule 10 participants per hour until 4pm. Speeds reached are generally around 70mph, and we do not allow tire screeching in the turns. We are typically off the property about an hour after the last participant drives. On Sunday evening, we should be completely out by 6-6:30pm. We do not use any water, electricity, or other utilities, and do not have any loud music playing. Our vehicles also all have factory exhaust system, so excessive noise is usually not an issue with our events.

Please let me know if you need any other information! Feel free to call or email me at any time. Thank you!
