Here are the Red Butterfly: Metal sculpture to be place in front of the Venice Art Center Portico. Artist, Iugufelo (Luis G. Fernandez L.) will place sculpture at the Art Center for a duration of 5 year contract.

Torso: To be placed near the front of the Venice Art Center. Artist, Iugufelo (Luis G. Fernandez L.) will place sculpture at the Art Center for a duration of 5 year contract.

The Venice art Center is also proposing a 2020 Public Arts Project named "Venice Fanta-Sea" in which we hope to place a total of 50 sculptures in areas of town that will boost tourism, enhance businesses and create a higher quality of life for residents of our area. We plan to have individual artists paint fiberglass Mermaids and Seahorses (approx. size 5-6 feet). Pictures of the proposed sculptures are attached. This is our third similar public arts project. The first project was in 2005 and was called "Pigs in Paradise" and the second in 2012-14 and were well received by residents, businesses, tourists and city officials. This is a fundraiser which will allow the sculptures to be on the streets for a duration of two years. We have asked preliminary sponsors their opinions of the sculptures and have had enthusiastic responses.
