Venice Pier Group
1600 Harbor Dr.
S. Venice, FL
34285

Mr. Justin Pachota, Proprietor

I am contacting your organization on behalf of the Venice Environmental Advisory Board. The board will on June 23 at 1PM in council chambers consider a proposal encouraging the use of biodegradable utensils, food and drank containers by food service business within the city limits and a resolution requiring the use of these items in all public events that require city licensing and permitting.

We are reaching out directly to you since your organization has three restaurants in the greater Venice area to provide the board a broad range of information. We recommend that to participate in person or virtually to contact the city's clerks office in a timely manner at (941) 882-7396

Respectfully yours,

Ronald Courtney
Vice Chair
Venice Environmental Advisory Board
